**BICEPS Network –**

*BOOSTING INITIATIVES FOR COLLABORATIVE EMISSION REDUCTION WITH THE POWER OF SHIPPERS*

**Leveraging forces for a better world**

**Active dialogue for faster adoption of innovations**

# Invitation

The mission of the BICEPS Network is to jointly drive sustainability to the next level in the shipping sector. By organizing innovation workshops with all chain partners we strive to collaboration and to boost initiatives and create momentum for the adoption of sustainable innovations in the shipping sector.

**Workshop: “Next steps towards clean fuels: scale-up of alternative fuels?”**

**Date: 18 October 2018 (13.30-17.00 hrs CET)**

**Location: Huntsman, Rotterdam**

In this exclusive workshop in a small setting we like to address the question “What can be successful scale-up strategies?!”, and to define “What next steps can be made in collaboration?!”.

**Get to know more from:**

- CMA-CGM – ‘Sustainable Strategy & alternative fuels/LNG’ by Julien Topenot, Sustainable en Security Director
- Shell LNG – ‘Low Sulphur shipping lanes in 2020 and after, the role of LNG and beyond’ by Rob Stassen, BD manager
- Conoship – ‘Energy efficient ship designs in practice’ by Guus van der Bles, Director Development

**=> Are you interested? And are you willing to work together on it?**
